

BLESSINGS AND GOOD WISHES FOR THE COURSE

Dear best friends,

I am so proud of your amazing new horizons towards reinforcing and promoting Art Photography. It's truly fantastic your esteem name and professionalism that always fulfil the great expectations of photo lovers.

You will always exist in my heart and I will take power from your love. Eventually the world is too small in front of the power of peace to conquer it all in one day. It's so beautiful to look at the sea and specially when I think of you because all the sea water is transformed into love and respect!!!

I am blessing for you with the spirit of the lyrics of my FIAP Song. Spread more love, peace and friendship.

I hope the new sun tomorrow will give us light like our photos. Always hope for values and ideals. To put our own sunscreen to build the most beautiful world of true love and friendship!!!

Photography is happiness. I hope to live together with this great joy.

Professor ANDREAS L. ANDREOU,
